

'The Force'

THE INTERNATIONAL FORCE GROUP

**Newsletter of FORCE Group
April - May, 2024**

From My desk

Dear FORCE family,

Greetings!

It was a pleasure meeting most of you at the AGM held in GOA end of February and I am glad it was a very fruitful and a productive AGM for all the members who participated. We have also taken two very important decisions during the AGM with regard to the "By Laws" of FORCE as well as implementing a new policy with regard to failure of payments by members during a bankruptcy.

I have already shared the updated documents on both above areas with all the members and strongly suggest all of you to take some time to read and be aware of these latest updates.

Once again can I remind all that we are looking for members in countries where we do not have any members as of now and request all of you to recommend your partners or associates so I can follow up. Few have already done that and I am following up on these leads.

The Secretariat has also requested company details from all members so that we can show case each one of you in our future newsletters. Some of you have already shared the details and we look forward to receiving similar from all other members too.

Wishing you all good luck and happy cooperation amongst everyone.

Best regards,
Rohitha

Moments of FORCE AGM 2024

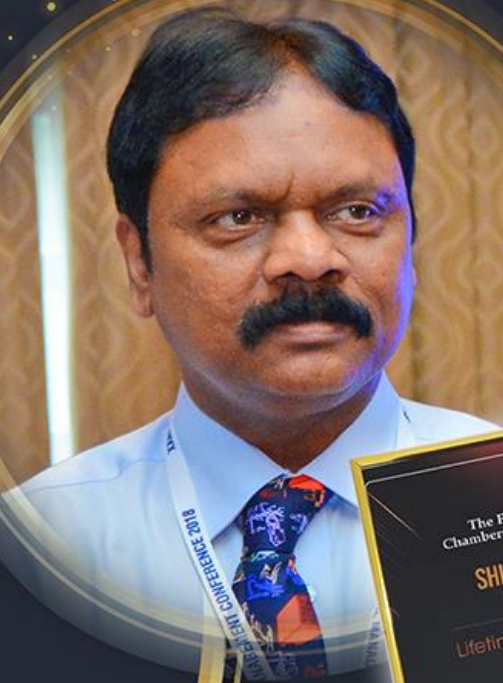

*Congratulations
Capt Mohan!*

Life time Achievement Award

For the five decade long outstanding contribution to Shipping and Logistics

The organization of Transport and Logistics Services is the core business of our federation of united specialists. The Group is built as an adaptable ecosystem: each independent subsidiary maintains a human scale company, an autonomous and responsible management and committed employees. A single requirement brings us all together: to build and guarantee the “manufactured” solution that will satisfy the well-understood demand of our value partners.

- Logistics
- Customs
- Air Freight
- Sea Freight
- AOG
- Land Transport

Manufacture de solutions logistiques

Allround Forwarding is a family owned business for more than 55 years now.

Our home is New York City with one branch office in Cleveland, OH.

We are licensed customs house brokers, IATA agent, C-TPAT founding member and an FMC approved NVOCC. We also have an operation for US activity in Europe which allows a more efficient communication with Europe and Asia.

Co Services

Our focus is on air and oceanfreight and in-house customs clearance.

We also offer warehousing and transload services through selected partners.
